

COMING SOON

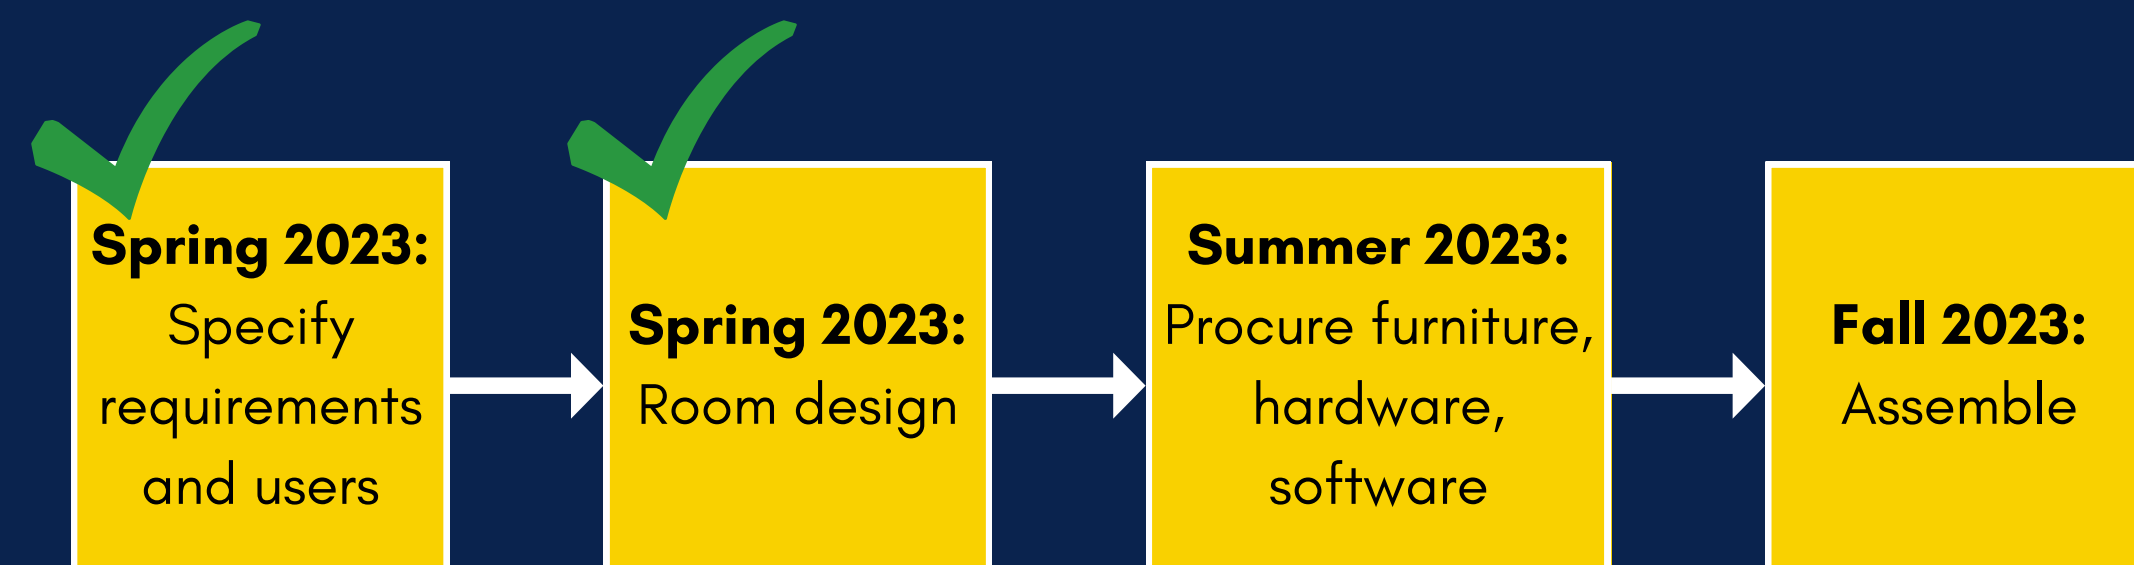

Welcome to the new Room 122! The NASA Airborne Science Program (ASP) and the Ames Earth Science Division are redesigning this space into a multi-function interactive airborne science operations center. The redesigned room will provide a space for NASA ASP affiliates (e.g., NEX, ESPO, science teams) to meet and work, as well as to bring guests (e.g., media, VIP, tours) to showcase airborne Earth science in action.

Thank you for your patience. If you have any questions, please contact brenna.c.biggs@nasa.gov (ASP lead) or chris.scotfield@nasa.gov (ARC-SG).
