Comments:	The objective of this flight was coordinated over-ocean flight over broken strato-cumulus clouds. The ER-2 flew a crossing pattern timed to coincide with at Terra satellite overpass. The P3 flew a grid of stairstep legs at the center of the pattern. The B200 also participated. One of the primary instruments on the ER-2 failed at the beginning of the flight. All other instruments collected data. A loose hatch was discovered on the ER-2 after landing and the aircraft is currently grounded until the cause is understood.
