Comments:	Transit flights from KMSY-KELP-KEDW completed yesterday (3/28/18). Worked around weather in central U.S. and deferred the maintenance items described earlier to get resolved back at KEDW. Excellent support from our mechanics (Mario, Alex, and Leroy) to help us understand the issues and make the best decision for all concerned. Thanks for the back home support as well from Tiffany! We'll await feedback from JPL regarding data collected over last several days of deployment. Initial review looks like data quality were good.
